PE: Gym clothes and tennis shoes

## English 8 Summer Reading Assignment

Read *The Curious Incident of the Dog in the Night Time* by Mark Haddon

Feel free to get this book from the library, or you can purchase a copy for yourself if you prefer to keep it.

In literature, we have characters who are static (meaning they do NOT change over the course of the story) and characters who are dynamic (meaning they DO change over the course of the story). At first glance, Christopher seems to be a character who resists change in all ways. However, a closer examination of his story reveals that he actually changes quite a bit. Explain the ways in which Christopher is a dynamic character in

*The Curious Incident of the Dog in the Night-Time*. In your response, you should also explain what factors and events that happen to him help him to change.

This essay should be at least two typed, double-spaced pages and in proper MLA format (Times New Roman, 12-point font). Use your best spelling, grammar, and organization of ideas. Your essay should have a clear introduction and conclusion, as well as multiple body paragraphs in which you analyze Christopher's character development. You should keep in mind this essay prompt as you read, and you should take notes as you read of ideas that you might want to include in your essay. Use direct quotes or paraphrase ideas from the text to support the ideas in your essay as best as possible. Please complete this essay on a Google Doc. We will be doing some activities with this book during the first few days of the school year, so please have this book read and your written assignment completed by the time the year begins. If you have any questions, feel free to e-mail me at [mmargolies@hbha.edu](mailto:mmargolies@hbha.edu). Have a great summer, and happy reading!
