

HBHA Immunization Policy

At HBHA, we take seriously the safety and well-being of our children. In 2015, it was determined that HBHA will not accept any vaccination waivers from families for religious or philosophical reasons. This policy was accepted by the HBHA Board on February 9, 2015, and put into effect immediately.

The only possible exception to this policy would be a medical waiver for vaccines that raise potential issues for a specific child. In the rare instance of a medical exception, HBHA administration will review the merit of the medical waiver on a case-by-case basis.

All incoming HBHA families will need to submit up-to-date proof of immunization upon application to the school. If your child is re-enrolled at HBHA, you do not need to re-send immunization information unless it contains updates (e.g., 11-year-old immunizations).

We look forward to continuing to partner with HBHA parents in keeping our children safe and healthy! If you have questions related to immunizations, please contact Nurse Elisa Pener at epener@hbha.edu.
